# Pad Making is Easy with a Hudson Padding Press

**Pads Up To 500 mm Wide**

With a Hudson Padding Press, production output will improve and cleaner, better padding will result. Improved padding is particularly noticeable where perfectly registered forms are required on multiple sets such as duplicate and triplicate forms. The Hudson Padding Press is fitted with proper side guides where the stack is padded hard against the alignment rack. Each Hudson Press comes with two pressure units so that while one stack of pads is drying, another stack can be padded.
