- Protects your jobs from moisture

NEW

Hudson SPW-20

Systems Print Wash for:

- Cleaning Plate Processors Including CTP & P/S plate machines. Completely removes developer and plate polymer residues.
- Automatic Press Wash-Up Units
- Cleaning rollers & blankets
- Removing ink build-up in roller pores and chemical/ink residues from blankets.

- **Non-carcinogenic**
- **Non-flammable**

Do You Need A Laminator?

Hudson's sells a line of laminating machines from **\$327*** ranging from small units up to large roll-fed laminators.

Bulk rolls of laminating film plus an extensive range of pouches are also available.

Van Son Inks • the Quality Inks That Work!

**For Small Size
Offset Presses**

Rubber Base Plus

**Formulated to Print
on Uncoated Stocks**

This special Van Son ink:

- Sets immediately and dries fast, allowing for quick back up, cutting and folding.
- Stays open on the press overnight and doesn't skin in the can.
- Runs with all plate systems on all offset presses.
- Is ideal for numbering, letterpress printing and rotary forms presses.
- Provides dependable and consistent performance.

It is available in universal black and the basic range of PANTONE colours off the shelf.

**For Medium to
Large Presses**

Quickson

**Process Colour Inks
At Their Best**

You'll be amazed at the difference Quickson makes - in colour, gloss, trap tolerance, setting time and scuff resistance.

Quickson ink offers:

- Intense colour with a brilliant gloss and excellent mileage.
- Perfect traps, faster setting inks in vacuum-sealed cans.
- Minute dot gain and superior blanket release.
- Environment-friendly as Quickson is predominately formulated with vegetable drying oils.
- Rub resistance like no other ink.

Van Son Quickson goes further, prints better and saves money in the long run.

**For Printing on
Non-porous Stocks**

Tough Tex

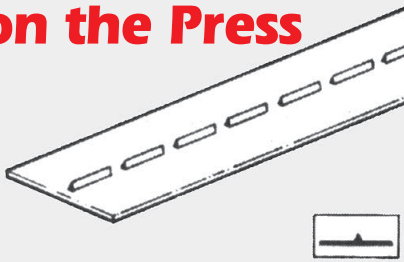

**Print on to Vinyl,
Foil, Plastics Etc.**

Tough Tex special purpose ink allows you to print on the most unfriendly surfaces with absolute confidence.

- Use any type of offset press, small or large, preferably from a metal plate.
- Ink dries by oxidation to a hard, brilliant glossy finish.
- Stands up to outside exposure by the elements.
- Recommended for waterproof labels, bumper stickers and all work that has to be printed on usually difficult non-porous stocks.

Instructions are included with all initial orders placed with Hudson's.

Slitting, Scoring & Perforating on the Press

Even if your press is not fitted with a perforating attachment you can still perforate, slit or score while you print - in the one operation.

PERFECT-PERF is a flexible rule that you attach to the impression cylinder so that while you are printing, the job can be perforated simultaneously.

Available in 6, 8, 12 or 16 teeth to the inch, **PERFECT-PERF** is also for slitting and scoring. It comes in 6.1 metre rolls (20 foot) and is heat hardened to stand up to long runs.

PERFECT-PERF, PERFECT-SNAP, PERFECT-SLIT works equally well on a large web press, a business forms machine or a small offset press.

PERFECT-PERF products now have a red acrylic adhesive for longer life when mounted on the press.

LUMAGNY 30x MICROSCOPE

A precision-illuminated microscope with 30x magnification. Focus is adjusted by turning the wheel while the rotatable bulb can pinpoint the light on the object. It is battery operated with two AA batteries (not included).
