HAMBURG

Perfect for Digital and Conventional Printing

- Fast 10-second binding procedure
- Easy: pneumatic clamping of sheets
- Strong: unique spine scuffing
- Padding mode without cover
- Flexible spine: 2 rollers for applying hot melt glue

ABW

BLANKET AND ROLLER WASH

A general-purpose blanket, roller and press wash.

- NON-RED LABEL
- WATER MISCIBLE
- LOW ODOUR
- ECONOMICAL

ABW is a highly effective and efficient blanket and roller wash suitable for both automatic blanket washing systems and manual use.

ABW gives a fast and effective cleaning action, leaving the blankets clean, matt and tack free. This improves their ink receptivity and ink transfer characteristics and extends their working life.

When mixed with water, **ABW** will not only remove ink, but it will also remove gums, paper pile caused by build up of paper coating and paper fibre on the blanket, as well as salts and other contaminants originating from various press chemicals and water impurities.

ABW is economical with the features of more expensive "approved washes" and is formulated to comply with modern pressroom requirements.

Available from Hudson's, ABW is:

- non red label with a flash point of >62°C
- safe on all blankets and rollers;
- not regulated under the Hazchem code, UN number, EPG, Packing Group and ERG regulations

ABW is available in 5 litre cans (219-ABW-05) and 20 litre drums (219-ABW-20).
