# Duprinters

# Mini Collators

## DP-2030/DP-2050

These small, versatile table-top digital printers are ideal for A4 and B4 sheet reproduction. Despite their size they can print at speeds of 120 copies per minute.

## DP-43/33/31 Series

The DP-43/33/31 series are Duplo's standard A3 & B4 Duprinters. Ideal for producing A4 booklets, 2-up A4 prints, large signs and notices. All three models are available with built-in editing. The unique DP-43Si has an interface already fitted.

## DP-43SF

The DP-43SF is set to revolutionise office reprographic work. It has a unique, intelligent paper tray selection with three front loading paper trays each holding 500 sheets of the most frequently used stocks. It can be used on its own for copying or connected to a computer for high speed printing.

## DP-63S

The 600 dpi resolution of the DP-63S adds exceptional print quality to the already highly acclaimed cost, speed and computer connectivity benefits of the Duprinter range. Such high quality printing and copying has never been so cost effective and efficient.

## DP-63SH/DP-43SH

The new high capacity SH Duprinters offer an integral 3,000 sheet feed and 3,000 sheet delivery system. They are available in both 600 dpi and 400 dpi. Combined with the excellent print quality and computer to print capability along with their instant make-ready, colour change and 7,200 impressions/hr productivity, they are an ideal print-on-demand solution for the professional printer.

## DC-Micro 8

The DC-Micro 8 is the perfect solution for automatic collating and stapling of everyday documents. Fast and easy document presentation in offices, schools and copy shops has never been simpler.

## DC-6/DC-8 Mini Collators

Of just table-top dimensions, the DC-6 and DC-8 are an incredibly simple yet efficient way to collate your printed pages. The user simply loads the bins and away it goes. Connecting with Duplo ancillary finishing equipment provides a complete solution.

## DC-10/20 Mini Collators

The top-of-the-range mini collator, the DC-10, offers a range of advanced features including: programming, deeper paper capacity, faster collating speeds and larger paper sizes. In addition, with the DC-10 it is also possible to connect two towers to create a 20-station collator. Connect with Duplo ancillary finishing equipment for a complete solution.

### Tech Specifications DP-63H

<b>DPI</b>	600	* Heavier stock may be possible depending on the type and grain direction.
<b>Scanner</b>	A3	
<b>Print Area</b>	Up to A3	
<b>Paper Size</b>	A6-A3

# The Duplo<sup>TM</sup> Digital Print Room

*THE ALTERNATIVE PRINTING SOLUTION TO COPIERS, LASER PRINTERS AND SMALL OFFSET PRESSES. FAST, EASY TO USE AND VERY COST EFFECTIVE. HIGH QUALITY SINGLE AND SPOT COLOUR UP TO 600 DPI.*

*Create documents and other copy on a PC or Mac and print directly on to any model Duprinter via the SCSI interface.*

*Duprinting commences within seconds at speeds up to 7200 IPH. The Duprinter can also print directly from hard copy at 600 dpi.*

*Collate the printed sheets on a Duplo Collator, fold them on a Duplo Folder or automatically fold and insert with the Duplo MD300.*

*Using Duplo on-line finishing equipment you can convert collated sets into booklets, stapled or hole-punched documents and more.*

## Online finishing

## Folding

These ancillary finishing units can all be connected online with the Duplo DC-6, DC-8 or DC-10/20.

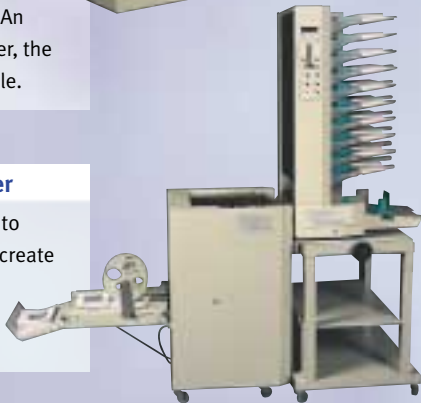

### DBM-100 Dynamic Booklet Maker

The DBM-100 is a new generation of booklet maker. With automatic size change for varying sizes in just 13 seconds, it has been designed for ease of set up, simplicity of operation and speed. The DBM-100 can side, corner and centre staple. An optional fore-edge trimmer, the DBM-100T, is also available.

### DBM-50 Booklet Maker

The DBM-50 enables you to saddle staple and fold to create the perfect booklet or to simply side or corner staple documents.

### DC-S4 Stapler/Hole Punch

The Duplo Stapler/Hole Punch offers corner stapling as standard with the additional options of hole punching or more uniquely, double parallel side stapling.

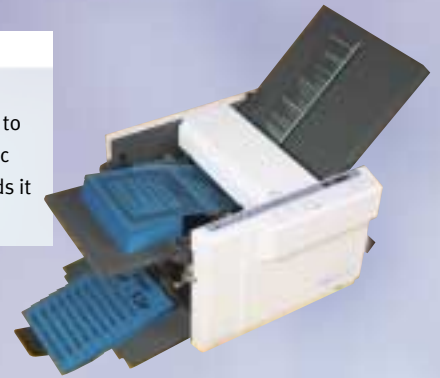

### DC-Mini Jogger

A must for those doing carbonless sets, handling both forward and backward numbered sets. The jogger aligns sets beautifully, ready for further processing such as padding.

### DF-520 Automatic Folder

This compact desktop folder allows precision folding of up to A3 size sheets. With automatic adjustment for six pre-set folds it is quick and simple to use.

## Inserting

### MD-300 Auto Folder/Inserter

The MD-300 is a programmable office inserting and folding machine. With two automatic paper feeding stations and a third nested insert station, it is ideal when enclosing pre-paid reply cards, envelopes or invites.

Duplo International is a world leader in the growing market of advanced paper handling solutions in the field of communication through print.

An exceptionally wide range of equipment is offered by Duplo to meet the needs of all Hudson's customers from commercial printers to office staff. The range of digital printers, collators, booklet makers and other finishing products has enjoyed outstanding success as Duplo has consistently led the way in innovation and productivity enhancements.

Duplo manufactures products that are renowned for their advanced features, ease of use, accuracy, robustness and contribution to productivity. Duplo is distributed in Australia by A.E.Hudson Pty Ltd.
