PANTONE® OFFER

Trade-in Your Old Reliable?

Old? Yes. Reliable? Not Anymore!

Colours faded from exposure to light.

Out of date: many new colours in Printer Edition.

Finger marks obscure true colours. Ink smudges do the same.

Ageing paper changes every colour.

Scuffing makes colours harder to read.

Replace your "Old Reliable" now on a NEW Printer Edition Guide

Hudson's will give you a \$56# trade-in on your old book for the Latest Formula Guide

Usual List Price	\$205*
Less Trade-in	\$56*
ONLY	\$149*

*plus delivery & GST

Offer open strictly on a trade-in basis. An old Formula Guide must be returned to receive the discount. #The \$56 trade-in offer is available on the regular list price for JULY and AUGUST 2003 ONLY.

The Pantone® Solid Colour to Process conversion guide

Which PANTONE Matching System colours can be reproduced in CMYK?

When working with a computer graphics system, the colour on the screen or from a computer colour printer is not necessarily how the colour will appear when finally printed.

The indispensable solid-to-process guide tells all. This money-saving guide provides a printed comparison of 1,089 solid PANTONE Colours side-by-side with their closest four-colour process match on coated stock.

The CMYK screen tint percentages are printed under each colour. The guide is now printed on a brighter coated stock and includes comparisons of the 147 new solid colours to CMYK.

Drilling

The Nagel Citoborma 490 is quick and easy to operate and can handle a full day's drilling requirements.

The Citoborma Model 490 can take up to six heads, which means most applications can be finished with only one stroke. Massive steel profiles ground to the highest precision guide the drill heads and table, which are free of play, enabling the most precise drilling. A range of special drill heads allows drilling hole patterns of very small distances between centres.
