PANTONE Color Cue™

Using the Color Cue, you will be able to quickly identify the closest solid PANTONE Color for any item that you point and click to, providing a valuable tool to enhance your colour work flow.

The new PANTONE Color Cue is an intelligent hand-held spectro-colorimeter programmed with PANTONE MATCHING SYSTEM Color data.

Once a colour is identified, the data is made available to you through a simple scrolling feature. There are no bulky cords or complicated software; it is powered with a 9-volt battery that makes it portable and easy to use.

TECH TIP #8

PAPER DRILL BITS

Hollow metal drills will break...

To maximise the serviceable life of a drill bit always use special Drilling Cardboard as an underlay. After setting the correct depth, the drill bit should only slightly cut the underlay board.

Another tip is to always store bits in plastic pouch marked with the size and hang up near the drilling machine. This can save hours of searching through a drawer and can save the bit from being damaged.

The special Drilling Cardboard is available from Hudson's with 5 x A4 sheets per pack.

Code: 614-914
