- Available in blue or grey A3 and A4
- Made in Australia

Australia's top paper trolley • 5 years guarantee

Transfer Cylinders Anti-marking Foils

Silicon Bead ICP Film Technology

Developed for markless transfer of wet ink sheets through Komori, Akiyama and Shinohara offset presses.

- Reduces press downtime due to fewer cylinder clean-ups.
- Eliminates marking of sheets from colour deck to deck.
- Overall lower cost than other systems.

Special Price
until 31 July
2004

TECH TIP #1 PAPER DRILL BITS Hollow metal drills will break...

Drill bits are parts without a guarantee from all manufacturers. Treated correctly they can have a long life. Use wax paper at regular intervals, during and at the end of each job. This will keep the drill bore in a clean and smooth condition, preventing paper clogging and far fewer broken drills. Hudson's supplies wax paper in packs (100).

Code 614-9444

These Packaging Tapes Work in Winter!

All adhesive tapes are affected by a low temperature, which hardens the adhesive and takes away the "stickiness". Hudson's packaging tapes have a natural rubber solvent adhesive that effectively combats this problem compared to other packing tapes.

36 mm x 75 metres: 48 rolls/carton

48 mm x 75 metres: 36 roll/carton
