**SUCTION COLLATING
&
BOOKLET MAKING**
For under \$50,000!

System 2000

DBM120T - Trimmer
DBM120 - Booklet Maker
DC10/60 - Collating Tower

- 10 Bin suction collating towers, 60 mm deep bins.
- Collating up to 10,000 per hour into stacker.
- Up to 16 sheets (folded) or 25 sheets (flat).
- Paper: Max: 450 x 320 mm Min: 148 x 100 mm
- Saddle, side or corner stitch or fold only.
- Hand marry station.

**2400
Booklet
Sets
Per Hour**

Pad Making is Easy

with a Hudson Padding Press

Pads up to 500 mm Wide

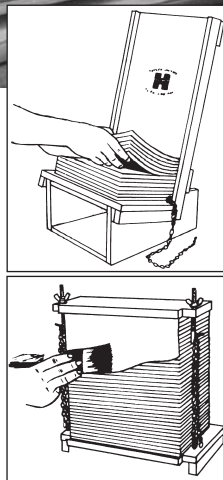

HAVE ONE STACK DRYING WHILE STACKING THE NEXT!

With a Hudson Padding Press, production output will improve and cleaner, better padding will result.

Improved padding is particularly noticeable where perfectly registered forms are required on multiple sets such as duplicate and triplicate forms. The Hudson Padding Press is fitted with proper side guides where the stack is padded hard against the alignment rack.

Each Hudson Press comes with two pressure units so that while one stack of pads is drying, another stack can be padded.

272-100

Correction Pens for Metal Plates

Removing Image: 'One Touch'

Hudson's 'One Touch' pens will delete unwanted image on all types of unbaked presensitised negative or positive plates and chemical transfer metal plates. Two sizes:

- 'Tough' thick for large areas, and
- 'Mini' fine for small areas and repairing fine lines.

228-050

228-051

Adding Image: 'Lacquer Pens'

Ideal for adding image to all types of metal plates such as a hole in a solid or a broken line - even a full stop that was forgotten.

Two sizes:

- Dual (both broad & fine tips), and
- Fine (one tip).

228-053

228-054

Image Remover for CTP Plates

228-059

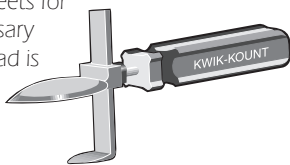

'One-Touch Beak'

Simply apply the pen point to the unwanted image until it is removed completely.

The Quick Way to Count Sheets When Making Pads

This handy little gadget, the Pad Counter/ Kwik-Kount, reduces the labour-intensive counting of sheets for pads, unnecessary after the first pad is counted.

274-02877

Padding Brush

Purpose designed glue brushes. 38 & 50 m. 214-120, 214-150

Pad Knife

To separate pads. 274-0101K

Quick Pad Plus

- Dries Quickly
- Won't Retab
- One Coat Sufficient
- Thins With Water
- Non Hazardous
- Remains Flexible

Sizes in 1, 4.5 & 20 litres

225-002

Non-flammable
Non-toxic

Special - Buy 3, Get 4

In White, Pink or Super Red
4.5 litre size. Until 7 Jan 2005

TECH TIP #5

PAPER DRILL BITS

Hollow metal drills will break...

If your drilling machine has a range of speeds, put them to use. For example, a 3mm drill bit should rotate about 3,000 RPM while an 11 mm bit should rotate around 1,400 RPM. This will assist in a cleaner, smoother drill hole and reduce drill snaps. Hudson's can supply bits in a wide variety of sizes for almost every paper drilling machine (most are in stock).
