AIR-JET JOGGER

Aerating Paper!
Separating sheets!
Aligning of stacks!

Strong jogging intensity including Air-Jet sheet separation!

The most effective paper jogger FKS PrintJog JL 300 is designed for use with all kinds of paper-handling:

- perfect sheet separation prior to feeding;
- perfect aligning of stacks prior to further processing, perfect binding, packing etc.

High levelled jogging intensity combined with sharp air-blast assures sheet-by-sheet separation and accurate aligning of all kinds of paper stacks.

The jogging table for formats up to 35 x 50 cm can be tilted stepless to match all substrates to jog. The heavy-duty floor-stand model is height-adjustable with movable castors. The jogging-top can be turned around for the most comfortable operator position.

Air separation

The jogging table is equipped with sidewise positioning Air-Jets, linked to an integrated turbine, for sharp air flow into the paper stack sides. For low or heavy weight substrates of paper, the air-blast is adjustable by a stepless control.

Functions

- Continuous run without interruption;
- On-demand foot switch controlled;
 - Timer for pre-setting jogging-interval, activated by foot switch.

Air-Jets for sheet separation

FKS PrintJog JL300

Hudson's Great Range of Aerosol Products

Printers Silicone

AEH335

Forms a film that renders any non-porous surface slippery. Eliminates sticking and repels water and ink.

Start-up

AEH307

Assists start-up of printing under 'cold' conditions before a press 'warm up' has been achieved.

Antistatic Spray

AEH304

Prevents static electricity on non-conductive surfaces. Useful around areas such as the feed board and delivery tapes

Spray Adhesive

AEH302

Pressure sensitive adhesive for artwork, mock-ups, styrene, posters, board, fabric, etc.

Ink Remover

AEH325

Softens up old, dried ink and dirt from presses, plates, type and number boxes for easy removal.

Stop Set

AEH303

Anti-skinning ink spray and roller conditioner. Prevents overnight skinning of ink on the press.

Engineers Yelder

AEH606

Prevents rust and corrosion, displaces moisture and lubricates. Provides assistance in loosening 'frozen' metal parts.

Process colour inks at their best

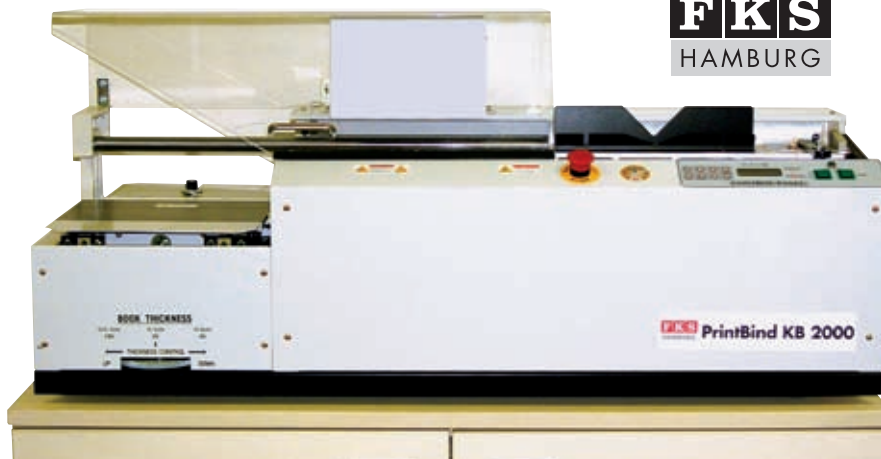

You'll be amazed at the difference Quickson makes — in colour, gloss, trap tolerance, setting time and scuff resistance.

Quickson Special ink (QSP) offers:

- Intense colour with a brilliant gloss and excellent mileage.
- Perfect traps, faster setting inks in vacuum-sealed cans.
- Minute dot gain and superior blanket release.
- Environment-friendly as QSP is predominately formulated with vegetable drying oils.
- Rub resistance like no other ink.

Van Son Quickson goes further and prints better, saving money in the long run.

PERFECT BINDER - GREAT PRICE!

F K S
HAMBURG

Perfect for Digital and Conventional Printing

- Fast 10-second binding procedure
- Easy: pneumatic clamping of sheets
- Strong: unique spine scuffing
- Padding mode without cover
- Flexible spine: 2 rollers for applying hot melt glue

Special Offer

during November and December 2006:

Buy **5 kg** of Quickson Special (any standard colours) and receive a bonus QSP opaque white ink (1.5 kg) **FREE**.
