Hudson's Great Range of Aerosols

Start-up

Assists start-up of printing under 'cold' conditions before a press 'warm up' has been achieved.

Printers Silicone

Forms a film that renders any non-porous surface slippery. Eliminates sticking and repels water and ink.

Stop Set

Anti-skinning ink spray and roller conditioner. Prevents overnight skinning of ink on the press.

Antistatic Spray

Prevents static electricity on non-conductive surfaces. Useful around areas such as the feed board and delivery tapes.

Ink Remover

Softens up old, dried ink and dirt from presses, plates, type and number boxes for easy removal.

Engineers Yelder

Prevents rust and corrosion, displaces moisture and lubricates. Provides assistance in loosening 'frozen' metal parts.

Spray Adhesive

Pressure-sensitive adhesive for artwork, styrene, board, posters, fabric etc.

Pad Making is Easy with a Hudson Padding Press

Pads Up To 500 mm Wide

With a Hudson Padding Press, production output will improve and cleaner, better padding will result. Improved padding is particularly noticeable where perfectly registered forms are required on multiple sets such as duplicate and triplicate forms. The Hudson Padding Press is fitted with proper side guides where the stack is padded hard against the alignment rack. Each Hudson Press comes with two pressure units so that while one stack of pads is drying, another stack can be padded.
