# Duplo™ System 2100

## Near-line Bookletmaking

- Converts a straight stack of electronically collated output from NexPress 2100, Xerox iGen or HP Indigo presses into fully finished, full-bleed booklets.
- Bar-code read function enables intelligent finishing of variable data booklets.
- As exhibited at PacPrint May 2005 on the Kodak NexPress stand.
- All components are controlled by Near-line PC Controller with JDF compatibility.
- In-line creasing eliminates toner and board cracking on cover.
- In-line 4 side trimming of cover enables full bleed without guillotining.

## PRINT SHOP SAFETY

RIGHT ✓

# USE THE DRUM TROLLEY

WRONG X

RIGHT ✓

Safety of the operator is the most important issue to enable a company to meet duty of care requirements.

The DTC-Drum trolley handles all sizes of drums safely and efficiently while protecting the worker.

Input loads are below 20 kg even when lifting 300 kg.

## The DTC-Drum Trolley

The ergonomic handling solution.

Patented

## Shrink Wrap Your Finished Print

- Protects from moisture
- Easy to use
- 2 models
- 450 mm & 600 mm wide
- Includes a bonus roll of film: 450 metres x 25µms

## PROVEN PRESSROOM CHEMISTRY

ABW-2010\*

### A General Purpose Blanket and Press Wash

ABW-2010\* is a highly effective and efficient blanket wash that is fully water miscible. Non Red Label flammability (Flash point +64°C) & Non Regulated UN Regulations.

FBW-2010\*

### Fast Blanket and Roller Wash

FBW-2010\* is a fast, efficient and highly effective blanket and roller wash designed for use on all types of machines and on all blankets and rollers.

RRC-2010\*

### Rapid Roller Conditioner

RRC-2010\* offers a one step cleaning process where previously several steps were necessary to achieve the desired result. It cleans and revives rollers, restores their original resiliency and removes items such as glaze, dried ink, gum residues, paper lint and dust.

ADC-2010\*

### Aqua Dampener Cleaner

ADC-2010\* is a water based, highly effective dampener cover cleaner. It has a powerful cleaning effect and will remove all ink from rollers and dampener covers. It is very mild and harmless to the skin, non-corrosive and totally safe to use. Suitable for both manual and machine use.

WGW-2010\*

### White Gum Washout

WGW-2010\* is a non-flammable, white gum plate washout solution suitable for all types of positive or negative aluminium plates. It is ideally suited for use in the press room as it quickly and effectively dissolves even the heaviest ink film on the plate and, at the same time, protects its surface against oxidation thereby keeping the image area ink receptive.
