Electronic Paper Handling for the Digital Printer

The LEOWORK Cordless, Moveable table with ELECTRIC HEIGHT ADJUSTMENT

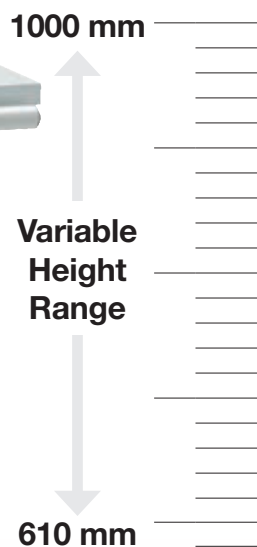

Load Lift 50 kg

Robust German construction

Control Panel

NEW

- Infinitely variable height adjustment from 610 to 1000 mm.
- Built-in mains power battery charger – no cords to trip over.
- Automatic power cut-off when not in operation.
- Smooth rolling, lockable castors.
- Optical indication of battery status.
- Large work table 650 mm x 585 mm.

Allows the operator to move printed stacks to other equipment for folding, cutting, packing, etc. and adjust to the same table height for easy transfer.

It's a great idea!

The Leowork – “A lion of a work station”

Order code: 623-LEO

Quick

Eliminates ink build-up on impression cylinder

QUICK is a paste-like material that is applied in a thin coating to the impression cylinders of either large or small presses. **QUICK** will prevent wet or semi-dry ink from building up on the impression cylinder. This will enable you to print on the reverse side immediately after printing the first side.

QUICK is about 10 times more effective than spray products that are used for the same purpose and will prevent ink build up for 30,000 to 50,000 sheets. A single 300 gram tube (10 oz) is enough to treat a sixty inch four colour press at least four times.

Code 294-2085

TECH TIP FAUST·VIRKO

THERMO POWDER

When raising type sizes from 36 point or raising solid areas and broad line work, use grade #609. The finished result will be a much better raise with a smoother finish over the entire image. It is also cheaper than using finer grades of powder.

SPECIAL OFFER

During September & October the usual price of \$62.95 per kg is discounted to only **\$50.00** per can.

FOUNTAIN FORMULA PLUS

FFP FOUNTAIN SOLUTION REDUCES CALCIUM BUILD UP AND USES LESS ALCOHOL

FFP is specifically formulated to run on fast, modern mid-size to large presses equipped with alcohol dampening units.

Features include:

- Maintains clean non-image area resulting in an extremely sharp print.
- Anti-foaming additives effectively eliminate foaming problems.
- Buffered to maintain a constant pH level even if dilution factor needs altering.
- Works well on all dampening systems. Aids ink drying by reduction of water.
- Low alcohol results in reduction of harmful VOCs.
- Superior wetting agent gives greater blanket lubrication and minimises piling.
- Contains strong fungicide to eliminate bacterial growth. Slight odour.
- Concentrated, 2-3% dilution ratio.
- Hazchem code: Not regulated
- UN number: Not regulated
- EPG: None assigned
- Packaging group: None assigned

Available in 5 litre container.

Code: 219-FFP-05

Floor Model Stapling Machine

- Single head to a thickness of 18 mm
- Deep throat 300 mm magazine load
- Heavy-duty foot operation
- Flat and saddle stapling
- A3 sheet size

Code: 619-HM18

Electric Jogger

- A very popular jogger
- Handles all sizes to A3
- Fast and accurate jogging

Code: 619-PR3

HM18 manual operation
